Previous Study Abroad Programs

**Sustainability in Germany**

Students will focus on research, programs and strategies, as well as the implementation of plans that are aimed at dealing with sustainability, the environment, climate change, and energy production & consumption.

**Jamaica Study Tour (Herbert College of Agriculture)**

The Jamaica study tour offers students an opportunity to see Jamaican agriculture and natural resources through the eyes of Jamaicans.

**Smart Infrastructure and Sustainability Engineering in China**

Students foster an understanding of the fundamental engineering concepts that impact the sustainable infrastructure design critical for smart cities.
Tropical Ecology, Conservation and Field Methods in Belize

Explore new wildlife and ecosystems, experience different cultures, and learn about conservation issues in Belize.

Waters and Civilizations in Dominican Republic

Study Waters and Civilizations in the Dominican Republic. Santiago is the second largest city in the Dominican Republic and the economic center of the fertile Cibao Valley.

Wildlife Medicine

Conservation and Policy: This course is an intensive introduction to key topics in wildlife medicine and conservation issues in the neo-tropics. Students learn about wildlife medical issues and approaches, the role of the veterinarian in wildlife conservation, zoo medicine, and wildlife rescue & rehabilitation.
